Skills

- **Languages:** Javascript, Python, C
- **Technologies:** HTML, CSS, React, Node.js, Express.js, Gsap, TailwindCss
- **Databases/Tools:** MySql, MongoDB, Git, Github, Figma, Spline, Shader
- **Soft Skill:** Problem solving, Team collaboration, Time management, Leadership

Projects

Modern calculator | [Github](#)

Sep 2025 - Oct2025

- Developed a responsive calculator supporting arithmetic operations with real-time expression and result display.
- Implemented calculation logic, input handling, clear/delete functions, decimal operations, and error handling using JavaScript.
- Added keyboard support for numbers, operators, Enter, Escape, and Backspace to improve user interaction and accessibility.
- Designed a modern responsive interface using Tailwind CSS with interactive button animations and responsive layouts.
- Tech Stack: HTML, JavaScript, Tailwind CSS

Mazza Frontend | [Github](#)

Oct 2025 - Nov 2025

- Spearheaded the development of a highly interactive promotional web application for Maaza utilising modern frontend development practices.
- Engineered scroll-linked animations and staggered text reveals by implementing GSAP and ScrollTrigger to create an immersive visual experience.
- Architected a dynamic, responsive layout integrating advanced custom CSS techniques such as complex clip-paths and gradient masking.
- Designed a seamless user interface using utility-first Tailwind CSS classes, ensuring pixel-perfect alignment and cross-device compatibility.
- Tech Stack: HTML, CSS, Tailwind CSS, JavaScript, GSAP

Web 2(My Web Page) | [Github](#)

Nov 2025 - Dec 2025

- Engineered a multi-page interactive website incorporating modular HTML, CSS, and JavaScript architectures across dedicated Home, About, and Contact sections.
- Designed custom loading animations and seamless page transitions utilising separate scripting and styling logic to elevate the overall user experience.
- Organised a scalable project repository with a clean separation of concerns, efficiently managing and linking 20+ static assets and interconnected component files.
- Tech Stack: HTML, CSS, JavaScript

Certificates

- Leadership | [Edutech Hub](#) Dec, 2025
- C++ MOOC | [Saylor Academy](#) Jan, 2026
- React certificate | [Infosys Springboard](#) April, 2026

Achievements

- Architected the user interface and robust backend database structure for "EventHub+", a comprehensive duty leave management web application utilising React, Node.js, and PostgreSQL with Prisma.
- Designed and programmed a functional real-time obstacle-detecting umbrella prototype by integrating an Arduino Uno, ultrasonic sensors, an MPU6050 accelerometer, and embedded C++ code.
- Got "O" Grade in Every Coding Subject.

Education

- Lovely Profession University
Bachelor in Technology- Computer Science and Engineering (1st year); CGPA : 8.78
Phagwara, Punjab
July 2026 - Present
- St. Xavier Higher Secondary Public School
Higher Secondary Education; Percentage: 89%
Athagarh, Odisha
May-2025
- Brahmani Public School
Secondary Education; Percentage: 84%
Kharagprasad, Odisha
May- 2023
